Ruman Islam

Full-Stack Web Developer

China, Hunan | 16681380580 | rumanislam0429@gmail.com
GitHub | LinkedIn | Portfolio | YouTube

PROFILE

Full-stack developer who independently built five client websites end to end, including e-commerce storefronts, booking workflows and admin dashboards. Develops React and Next.js frontends, Express APIs and MongoDB data models, with experience integrating payments, real-time communication and media processing.

EXPERIENCE

DevRiser | Full-Stack and Mobile App Developer

December 2025 - Present

Freelance Full-Stack Developer

January 2023 - Present

• Built Tony’s Collection, Church Logo, Well Tea, ANDO Water and Jannah Express independently. Worked directly with clients to translate requirements into responsive websites, backend services and admin workflows.

3W Business PVT Ltd. | Backend Developer Intern

March 2023 - August 2023 | Noida, India

• Developed and integrated backend APIs for Taskplanet and translated platform business rules into server-side logic.

B.Sc. in Computer Science and Engineering | Tejgaon College, Dhaka | 2016 - 2020

Web Development Certificate | Programming Hero | Six-month program

Ruman Islam

SELECTED PROJECTS

Tony’s Collection | Solo Full-Stack Developer

tonyscollection.shop/en

• Built the curtain storefront, regional storefront, admin dashboard and API. Implemented localized routing, product variants, promotions, Stripe checkout, order management and a Google Merchant product feed.

• Built real-time support chat and livestream features using Socket.IO, Redis and Agora. Added admin workflows for campaigns, media uploads and audit logs.

Stack Next.js, next-intl, React, Redux Toolkit, Material UI, Ant Design, Vite, Express, MongoDB/Mongoose, Redis, Stripe, Socket.IO, Agora, Cloudinary, Sharp, FFmpeg

Church Logo | Solo Full-Stack Developer

churchlogo.co

• Built a design-services storefront and admin dashboard for logo packages, customer orders, invoices, gallery content and client management.

• Integrated Stripe, Google sign-in and live customer chat. Implemented protected routes and role-based access for administrators.

Stack Next.js, React, Redux Toolkit, Tailwind CSS, Material UI, Vite, Ant Design, Express, MongoDB/Mongoose, Stripe, Socket.IO, Cloudinary, JWT

Well Tea | Solo Full-Stack Developer

www.welltea.co.uk

• Built a UK tea storefront with product variants, catalog search and filters, cart, wishlist, coupons and Stripe checkout. Built admin tools for products, orders, shipping, newsletters and content.

• Used tagged cache revalidation, SEO metadata, sitemaps, collection routing and a Merchant Center feed. Added regression coverage for catalog SEO, authentication, fulfillment and API boundaries, with GitHub Actions verification.

Stack Next.js, React, Redux Toolkit, HeroUI, Tailwind CSS, Vite, Ant Design, Express, MongoDB/Mongoose, Stripe, Cloudinary, Sharp, GitHub Actions

ANDO Water | Solo Full-Stack Developer

andowater.com

• Built a hospitality brand website, admin dashboard and API for product content, media management and founding-access enquiries.

• Implemented lead management, protected admin routes and media upload workflows with image and video processing.

Stack Next.js, React, Redux Toolkit, GSAP, Framer Motion, Vite, Ant Design, Express, MongoDB/Mongoose, JWT, Zod, Sharp, FFmpeg

Jannah Express | Solo Full-Stack Developer

jannahexpress.com

• Built a chauffeur booking platform with address search, distance-based fares, instant quotes and Stripe payments. Built admin tools for bookings, pricing, customers, user roles and activity logs.

Stack React, Redux Toolkit, Tailwind CSS, Node.js, Express, MongoDB, Google Places and Distance Matrix APIs, Stripe, JWT, Nodemailer

Taskplanet MLM | Backend Developer Intern

taskplanet.org

• Contributed backend APIs and business logic for user tasks, earning workflows, advertising, account settings and dashboard data.

Stack Node.js, Express, MongoDB, JWT
